

# DVE Telepresence™ 50 (T-50)

## **Affordable True Telepresence -- Meeting Rooms with Perfect Eye Contact**

The DVE Telepresence 50 is DVE's flagship product for group conferencing. Life-size images with full upper body language and perfect eye contact. The DVE group experience takes into account the correct human factors of quality communication by optically embedding cameras behind the display image. DVE has intelligently engineered the DVE Telepresence 50 to meet the communication demands of an entire organization with deployment of systems potentially in every meeting room and not just a few corporate showcase rooms. The DVE Telepresence 50 can be deployed in up to four other rooms in the organization for the same price as one of our competitor's bulky room systems. The economics and the True Telepresence experience establish the DVE Telepresence 50 as the superior choice.

- ▶ Immersive telepresence for groups of 2-8 people per side
- ▶ Life-size image with full upper body language
- ▶ True eye contact / Optically embedded camera(s)
- ▶ 50" wide screen with HDTV and PC inputs
- ▶ Sleek eye-appealing design
- ▶ Optional Intelligent Switched Telepresence with multiple cameras
- ▶ Practical and affordable True Telepresence for groups
